

I still don't get the birds and the bees part.

They don't understand. But you do. Your gift of love will help prevent countless generations of innocent puppies and kittens from entering a world with no room for them. Since 2002, ARC has spayed and neutered more than 23,000 cats and dogs in Sarasota and Manatee counties. Please consider a donation to address the problem at its cause and end the killing of adoptable cats and dogs. For shelter animals like these, there really is no place like a home.
